CONCEPT NOTE

Title: Proposed Technical Study Tour & Peer-Learning Engagement
Achiase District Assembly (Ghana) – Canadian Partner Institution

Background:

Achiase District Assembly is the local government authority responsible for planning, environmental management, and socio-economic development within the Achiase District in Ghana's Eastern Region.

Objectives:

- Learn practical approaches to flooding and watershed management
- Understand community-based waste management models
- Explore land restoration and climate adaptation practices
- Strengthen inclusive and participatory local governance
- Establish pathways for future collaboration

Duration:

4-5 working days

Responsibilities:

The Achiase District Assembly will cover travel and accommodation costs.

The host institution will provide technical hosting and peer-learning facilitation.
